REMOTE SDU FOR SKR

Meeting the Needs of Ductless Installations!

Designed for Flexibility

Ideal for condos / apartments without a duct network, the remote SDU is designed for through-the-wall installation to provide steam humidification directly into the room.

Remote SDU Features

- Install the distribution unit through a wall partition to the main space.
- Install the SKR humidifier in a closet or other close location.
- Modern design of SDU front grill blends into any decor.
- Low noise (less than 40dBA at 3ft / 1m).
