## Neptronic Welcomes Teddington – New Exclusive Agent in France

**Montreal, Canada | February 16, 2017** – Neptronic is proud to welcome Teddington, our new exclusive France based agent, to the Neptronic family. Neptronic is looking forward to fostering an enduring relationship and benefiting from Teddington's 80 years experience in the humidification industry.

Founded in 1934, Teddington has built a solid reputation in the HVAC industry. They also offer a variety of different products such as air curtains, heat pumps and commercial and industrial cooling. Teddington prides themselves on offering quality products, technical expertise and excellent customer service.

### About Neptronic

Founded in 1976, Neptronic is a private corporation that designs, manufactures and distributes products for the HVAC industry. The Neptronic product line includes intelligent controllers, electronic actuators, actuated valves, humidifiers and electric duct heaters

Products are designed and manufactured by over 200 dedicated employees in an 80,000 ft<sup>2</sup> (7,500 m<sup>2</sup>) state-of-the-art facility located in Montreal, Canada. Using a vertically integrated plant model, all R&D and manufacturing capabilities are located under one roof; from software and hardware development, to SMT circuit board assembly, to sheet metal fabrication, to product testing.

Neptronic is committed to research and development, provides innovative products and technologies and exports over 75% of its sales through an exclusive distribution network for the HVAC industry worldwide
