

## New Distributor of Neptronic Products

Neptronic is pleased to announce that our line of controls will now be distributed by RDT-Zivan in Israel.

Specializing in controls & automation with a highly skilled team, Zivan is an industry leader in the Israeli market.

RDT-Zivan's vision to provide solutions combined with services in varied technologies aligns perfectly with Neptronic's guiding principles of innovation. We're delighted to be on board!

## About Neptronic

Founded in 1976, Neptronic is a private corporation that designs, manufactures and distributes products for the HVAC industry. The Neptronic product line includes intelligent controllers, electronic actuators, actuated valves, humidifiers and electric duct heaters.

Products are designed and manufactured by over 200 dedicated employees in an 80,000 ft<sup>2</sup> (7,500 m<sup>2</sup>) state-of-the-art facility located in Montreal, Canada. Using a vertically integrated plant model, all R&D and manufacturing capabilities are located under one roof; from software and hardware development, to SMT circuit board assembly, to sheet metal fabrication, to product testing.

Neptronic is committed to research and development, provides innovative products and technologies and exports over 75% of its sales through an exclusive distribution network for the HVAC industry worldwide.
