New Distributor of Neptronic Products

Montreal, Canada | July 31, 2018 – Neptronic is pleased to announce that BTU Company, Inc. is now our agent for the city of Chicago and the surrounding areas and will be offering our heater and humidifier product lines.

Incorporated in 1976, BTU Company has many years of experience providing design solutions matched with the quality equipment that best meets the needs of each project. BTU Company works with professional engineers, architects & building contractors to provide the best solutions for environmental control.

About Neptronic

Founded in 1976, Neptronic is a private corporation that designs, manufactures and distributes products for the HVAC industry. The Neptronic product line includes intelligent controllers, electronic actuators, actuated valves, humidifiers and electric duct heaters.

Products are designed and manufactured by over 200 dedicated employees in an 80,000 ft² (7,500 m²) state-of-the-art facility located in Montreal, Canada. Using a vertically integrated plant model, all R&D and manufacturing capabilities are located under one roof; from software and hardware development, to SMT circuit board assembly, to sheet metal fabrication, to product testing.

Neptronic is committed to research and development, provides innovative products and technologies and exports over 75% of its sales through an exclusive distribution network for the HVAC industry worldwide
