Universal Wall Mount Controllers: TSU, TSUB & TUUB Series

Montreal, Canada | April 20th, 2020 – Neptronic is delighted to announce the launch of our elegant new series of Universal Wall Mount Controllers. The TSU, TSUB and TUUB are designed for straightforward and accurate control of a heat pump, rooftop unit, fan coil or other heating/cooling equipment.

Features

- Temperature and optional RH, CO₂, VOC and occupancy sensors on select models
- Fully configurable: Up to 4 inputs & 10 outputs
- 1 to 3 speed or analog (ECM) fan control
- BMS integration via BACnet MS/TP or Modbus (TSUB and TUUB models)
- 7-day programmable schedule

About Neptronic

Founded in 1976, Neptronic is a private corporation that designs, manufactures and distributes products for the HVAC industry. The Neptronic product line includes intelligent controllers, electronic actuators, actuated valves, humidifiers and electric duct heaters.

Products are designed and manufactured by over 200 dedicated employees in an 80,000 ft² (7,500 m²) state-of-the-art facility located in Montreal, Canada. Using a vertically integrated plant model, all R&D and manufacturing capabilities are located under one roof; from software and hardware development, to SMT circuit board assembly, to sheet metal fabrication, to product testing.

Neptronic is committed to research and development, provides innovative products and technologies and exports over 75% of its sales through an exclusive distribution network for the HVAC industry worldwide.
