Neptronic at the 2022 AHR Expo

We are pleased to announce that Neptronic will be participating in the 2022 AHR Expo at the Las Vegas Convention Center. You will be able to come meet our team from **January 31st to February 2nd** at booth **C2130** to discover all our newest products and features.

This annual convention is the greatest event of the HVACR industry, held to showcase innovative ideas by a variety of manufacturers. Our team is proud to take part in the future of this ever-evolving field.

We are grateful for your continued support, and we look forward to seeing you this winter.

About Neptronic

Founded in 1976, Neptronic is a private corporation that designs, manufactures and distributes products for the HVAC industry. The Neptronic product line includes intelligent controllers, electronic actuators, actuated valves, humidifiers and electric duct heaters.

Products are designed and manufactured by over 200 dedicated employees in an 80,000 ft^2 (7,500 m^2) state-of-the-art facility located in Montreal, Canada. Using a vertically integrated plant model, all R&D and manufacturing capabilities are located under one roof; from software and hardware development, to SMT circuit board assembly, to sheet metal fabrication, to product testing.

Neptronic is committed to research and development, provides innovative products and technologies and exports over 75% of its sales through an exclusive distribution network for the HVAC industry worldwide
