## Neptronic is back from the AHR 2023 show in Atlanta!

**Montreal, Canada | February 16<sup>th</sup>, 2023** - So long Atlanta, we had a great time! The 2023 AHR Expo is now behind us, and we are happy to say it was a very successful show for Neptronic. This year brought back our breakfast meeting after a three year hiatus with record attendance. We showcased two new humidifiers, the **high-pressure spray SKH4** and **evaporative cooler SKVF**. Also on display were our new multifunction actuators, which offer much more versatility than the competition. Last but not least, we demonstrated the utility of the newly developed **Neptronic Cloud** as a turnkey solution for remote equipment monitoring and control. It's clear that Neptronic has emerged from the pandemic stronger, with novel and robust products that will meet the demands of a growing HVAC industry.

### Why Neptronic?

Neptronic's equipment is the first choice for air conditioning manufacturers and designers due to our experience in the manufacturing of humidification equipment, our practical redesigns in maintenance, precision in operation and low energy consumption, all thanks to our new patented designs.

Our dedicated team of over 300 experts designs and manufactures all our products in Montreal, Canada, where our 9,000 m<sup>2</sup> (97,000 sq.ft.) facility stands proudly. Our exclusive distribution network provides comprehensive solutions to our customers around the world.
