Neptronic to attend the Air and Refrigeration Industry event organized by CETAF

Montreal, Canada | April 17th, 2024 - Neptronic is excited to announce that we will be participating in the upcoming Air and Refrigeration Industry Meeting (Rendez-vous de l'industrie de l'air et du froid) organized by non-profit organization CETAF on **April 30, 2024**, in Quebec City, QC.

The event, now in its third edition, promises to be a gathering of industry leaders, showcasing cutting-edge technologies and advancements in control, ventilation, air conditioning, and refrigeration.

The Air and Refrigeration Industry Meeting presents the opportunity to explore latest products, network with industry players, and learn about the current industry trends.

Come visit us at **booth #3** at the Lévis Convention Center and learn about our latest products and solutions.

About CETAF:

CETAF serves as a hub for Quebec-based HVAC companies operating in the commercial, industrial, institutional, and residential sectors. CETAF also aims to bring together manufacturers, distributors and suppliers of air conditioning, refrigeration, ventilation, control, instrumentation equipment, etc. The organization aims to initiate and maintain interaction between the various stakeholders in the industry, as well as contribute and encourage training and development, while promoting quality and safety.

Why Neptronic?

Founded in 1976, Neptronic is a private corporation that designs, manufactures, and distributes products for the HVAC industry. The Neptronic product line includes intelligent controllers, electronic actuators, actuated valves, humidifiers, and electric duct heaters.

Products are designed and manufactured by over 200 dedicated employees in an 80,000 ft² (7,500 m²) state-of-the-art facility located in Montreal, Canada. Using a vertically integrated plant model, all R&D and manufacturing capabilities are located under one roof: from software and hardware development to SMT circuit board assembly, to sheet metal fabrication, to product testing.

Neptronic is committed to research and development, provides innovative products and technologies and exports over 70% of its sales through an exclusive distribution network for the HVAC industry worldwide.
