Neptronic at 2016 AHR Expo

Montreal, QC, February 17, 2016 – Neptronic participated at the 2016 AHR expo in Orlando from January 25 to 27 and exhibited several new products and innovations.

We introduced a new breakthrough technology - the **PCR** (Pressurized Condensate Return) system for our SKD direct steam humidifiers.

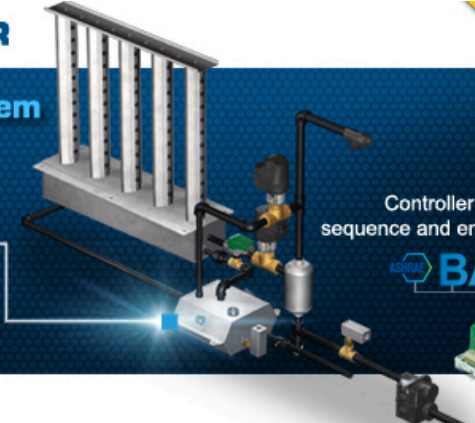

NEW

SKD - New Innovative PCR

Pressure Condensate Return System

- No Drain
- No Maintenance
- Reuse Condensate
- Save Energy

PCR
Pressurized
Condensate
Return System

ESC
Controller for operating
sequence and energy savings
BACnet

We also introduced our new **TUCB** Wall Mount Universal Controller that can be configured for application specific control of heat pumps, fan coils, packaged AC rooftop units, or other heating/cooling equipment.

NEW

HVAC Controls

Multi-App

Universal Wall-Mount Controller

- Flexible
- Fast Installation
- User Friendly
- Networkable

**Packaged AC RTU**

**Heat Pumps**

**Fan Coils**

We also had our yearly sales meeting where the 2015 Dominator Awards were handed to our best performing representatives.

This year's expo was a great success with over 60000 HVACR professionals attending the event.

Thanks to all those who came to our booth. We were very pleased to see your interest in our new products and hope to see you next year in Las Vegas!

About Neptronic

Founded in 1976, Neptronic is a private corporation that designs, manufactures and distributes products for the HVAC industry. The Neptronic product line includes intelligent controllers, electronic actuators, actuated valves, humidifiers and electric duct heaters.

Products are designed and manufactured by over 200 dedicated employees in an 80,000 ft² (7,500 m²) state-of-the-art facility located in Montreal, Canada. Using a vertically integrated plant model, all R&D and manufacturing capabilities are located under one roof; from software and hardware development, to SMT circuit board assembly, to sheet metal fabrication, to product testing.

Neptronic is committed to research and development, provides innovative products and technologies and exports over 85% of its sales through an exclusive distribution network for the HVAC industry worldwide.
