Neptronic at the Niagara Summit

Montreal, Canada | March 8, 2017 – Neptronic will be exhibiting at the Niagara Summit at Park Plaza Westminster in London from March 26 to 28. Neptronic will be presenting its application specific controllers including the new additions to the product line, the IAQ Controllers and Sensors, AROB and SARB Series. Come see us at the Neptronic booth to learn about all our new products.

About Neptronic

Founded in 1976, Neptronic is a private corporation that designs, manufactures and distributes products for the HVAC industry. The Neptronic product line includes intelligent controllers, electronic actuators, actuated valves, humidifiers and electric duct heaters.

Products are designed and manufactured by over 200 dedicated employees in an 80,000 ft² (7,500 m²) state-of-the-art facility located in Montreal, Canada. Using a vertically integrated plant model, all R&D and manufacturing capabilities are located under one roof; from software and hardware development, to SMT circuit board assembly, to sheet metal fabrication, to product testing.

Neptronic is committed to research and development, provides innovative products and technologies and exports over 75% of its sales through an exclusive distribution network for the HVAC industry worldwide
