New HVAC Controls Product Line

ARO & SAR Series

Montreal, Canada | May 1, 2017 – Neptronic is proud to officially announce the launch of its new HVAC Controls product line, the IAQ Wall-Mount Controllers (ARO series) and IAQ Room Sensors (SAR series). The ARO & SAR series come with built-in Indoor Air Quality (IAQ) sensors.

Some of the features available for the IAQ Wall-Mount Controller (ARO series) include:

- Built-in application profiles
- IAQ Sensors
- BACnet and Modbus
- EC Fan Control Mode

Some of the features available for the IAQ Room Sensor (SAR series) include:

- CO₂ sensor feedback
- CO₂ warning and alarm level outputs
- Humidity or VOC sensor feedback output

Some of the features available for the Networkable IAQ Room Sensor (SARB series) include:

- BACnet and Modbus
- Up to 2 inputs and 4 outputs
- Temp, %RH, CO₂ and VOC

About Neptronic

Founded in 1976, Neptronic is a private corporation that designs, manufactures and distributes products for the HVAC industry. The Neptronic product line includes intelligent controllers, electronic actuators, actuated valves, humidifiers and electric duct heaters.

Products are designed and manufactured by over 200 dedicated employees in an 80,000 ft² (7,500 m²) state-of-the-art facility located in Montreal, Canada. Using a vertically integrated plant model, all R&D and manufacturing capabilities are located under one roof; from software and hardware development, to SMT circuit board assembly, to sheet metal fabrication, to product testing.

Neptronic is committed to research and development, provides innovative products and technologies and exports over 70% of its sales through an exclusive distribution network for the HVAC industry worldwide.
