AHR Expo 2018 Neptronic Highlights

Once again this year, AHR Expo was a great success with around 72,000 attendees from 169 countries!

We officially launched the SKE4, our new generation of electric humidifiers as well as our updated gas fired and steam-to-steam humidifiers (SKG4 & SKS4), which generated a lot of interest.

We will see you all next year in Atlanta for AHR 2019.

About Neptronic

Founded in 1976, Neptronic is a private corporation that designs, manufactures and distributes products for the HVAC industry. The Neptronic product line includes intelligent controllers, electronic actuators, actuated valves, humidifiers and electric duct heaters.

Products are designed and manufactured by over 200 dedicated employees in an 80,000 ft² (7,500 m²) state-of-the-art facility located in Montreal, Canada. Using a vertically integrated plant model, all R&D and manufacturing capabilities are located under one roof; from software and hardware development, to SMT circuit board assembly, to sheet metal fabrication, to product testing.

Neptronic is committed to research and development, provides innovative products and technologies and exports over 75% of its sales through an exclusive distribution network for the HVAC industry worldwide.
