## Neptronic at AHR, Atlanta 2019

**Montreal, Canada | January 30, 2019**

Another year, another AHR Expo complete! This year was a huge success for Neptronic and we were thrilled to see everyone who came to the show. We showcased our latest additions to the Humidifier, Heaters, Controls and Actuated Valves families as well as a selection of our mainstays. The SKE4 Outdoor units, the CMMB-IP I/O Module, the elegantly designed TDU Universal Digital Room Sensor and the new Characterized Ball Valve all made their debut at this notable event.

A great time was had by all and we're already planning for 2020!

## About Neptronic

Founded in 1976, Neptronic is a private corporation that designs, manufactures and distributes products for the HVAC industry. The Neptronic product line includes intelligent controllers, electronic actuators, actuated valves, humidifiers and electric duct heaters.

Products are designed and manufactured by over 200 dedicated employees in an 80,000 ft<sup>2</sup> (7,500 m<sup>2</sup>) state-of-the-art facility located in Montreal, Canada. Using a vertically integrated plant model, all R&D and manufacturing capabilities are located under one roof; from software and hardware development, to SMT circuit board assembly, to sheet metal fabrication, to product testing.

Neptronic is committed to research and development, provides innovative products and technologies and exports over 75% of its sales through an exclusive distribution network for the HVAC industry worldwide
