Neptronic Welcomes New Agent in Ohio

Montreal, Canada | April 9th, 2020 – We are pleased to announce that GARDINER has officially joined Neptronic's global distribution network as an agent in the Northern Ohio area.

GARDINER is an HVAC company with over 55 years of experience. In 1958, Bill Gardiner sold his first Air Conditioning System for a multi-tenant office. Today, the company has more than 200 associates and are the leading professional building service company in Northern Ohio. GARDINER's main vision is working as a trusted partner to achieve high performance results for their clients.

 "We're committed to representing industry leaders in innovation & technology to offer the most complete HVAC systems & solutions in the market. We see our relationship with Neptronic as a great fit for us and for our clients across Northern Ohio." – Todd Barnhart, President of GARDINER

About Neptronic

Founded in 1976, Neptronic is a private corporation that designs, manufactures and distributes products for the HVAC industry. The Neptronic product line includes intelligent controllers, electronic actuators, actuated valves, humidifiers and electric duct heaters.

Products are designed and manufactured by over 200 dedicated employees in an 80,000 ft^2 (7,500 m^2) state-of-the-art facility located in Montreal, Canada. Using a vertically integrated plant model, all R&D and manufacturing capabilities are located under one roof; from software and hardware development, to SMT circuit board assembly, to sheet metal fabrication, to product testing.

Neptronic is committed to research and development, provides innovative products and technologies and exports over 75% of its sales through an exclusive distribution network for the HVAC industry worldwide
