Introducing Neptronic's Rep Locator

Montreal, Canada | October 23rd, 2020 – We are proud to announce that we have launched a new tool on the Neptronic website: The **Rep Locator**. This tool will be accessible from the home page and will show your company’s contact information based on the territory selected, including the company address, phone number, website, and contact email.

The new Rep Locator will benefit your company in different ways:

- Your company will be listed exclusively in your specific territory
- This tool will be easily accessible to any potential customers
- It will increase your company’s visibility with regards to our products
- Your website and contact information will be listed

About Neptronic

Founded in 1976, Neptronic is a private corporation that designs, manufactures, and distributes products for the HVAC industry. The Neptronic product line includes intelligent controllers, electronic actuators, actuated valves, humidifiers, and electric duct heaters. Products are designed and manufactured by over 250 dedicated employees in an 96,000 ft² (8,900 m²) state-of-the-art facility located in Montreal, Canada. Using a vertically integrated plant model, all R&D and manufacturing capabilities are located under one roof: from software and hardware development, to SMT circuit board assembly, to sheet metal fabrication, to product testing. Neptronic is committed to research and development, provides innovative products and technologies and exports over 75% of its sales through an exclusive distribution network for the HVAC industry worldwide
